REASONS FOR ALLOWEANCE

1. This is an Examiner's statement of reasons for allowance. The closest prior art Guck U.S. Pat. No. 5,911,776 discloses a network that provides a server using an object-database enables an author to create and store an original document, as a source file with a first format.

JP02004326583A, Shimogoori, Yumiko discloses a data exchange method capable of efficiently performing formation and transmission of transmitting data.

However, neither Guck nor Yumiko singularly or in combination discloses the recited feature:

As per claims 6, 15, 25 and 44 "the first version of the business application operable to determine the first version identifier and the second version identifier and, if the first version is higher than the second version, to exercise control over execution of the business process, the first version of the business application operable to allow the second version of the business application to exercise control over execution of the business process if the second version is higher than the first version".
